

SYIFA FAUZIYAH ARIZAL

FRONT-END DEVELOPER (IN PROGRESS)

Purwakarta, West Java | syifairgi@gmail.com | +62 859-2160-3000
[linkedin.com/in/syfaarizal](https://www.linkedin.com/in/syfaarizal) | github.com/syfaarizal

SUMMARY

Front-end web-developer enthusiast with a solid foundation in HTML, CSS, and JavaScript. Actively building portfolio projects every day to sharpen technical skills and problem-solving. Experienced with GitHub for version control and documentation. Focused on clean code, user-friendly design, and long-term product growth.

TECHNICAL SKILLS	STYLING & UI	SOFT SKILLS	TOOLS & TECH
HTML5	IUI/UX (Dasar)	Problem Solving	VS Code
CSS3	Typography & Color	Consistency & Focus	GitHub
JavaScript (Vanilla)	CSS Animation	Collaboration &	Canva
Responsive Design	Component-based	Empathy	Figma
Git & GitHub	thinking	Self-Learning	Notion · ChatGPT

PROJECT SHOWCASE

SICODER – Personal Portfolio Website <i>HTML, CSS, JavaScript, GitHub Pages</i> Personal website that showcases my learning journey. Emphasises clean layout and well-structured HTML/CSS.	Apr 2025 - Present
To-Do List App (Mobile View) <i>HTML, CSS, JavaScript</i> Simple task tracker with mobile-first design. Highlights DOM manipulation and responsive layout.	May 2025
Theme Toggle Animation <i>HTML, CSS, JavaScript (Light/Dark Mode)</i> Interactive UI component that switches themes with smooth animations. Planned upgrades for richer interactivity.	May 2025
7 JavaScript Mini Challenges <i>JavaScript (Vanilla)</i> Series of micro-projects (calculator, form validation, DOM interactivity) to master basic syntax, events, and logic. → See more projects on GitHub: github.com/syfaarizal	Juni 2025

LEARNING EXPERIENCE

- Daily Coding & Learning Habit**
40+ consecutive days of coding, note-taking in Notion, and GitHub commits.
- GitHub Active Contributor**
Consistently publishes code, refactors, and open documentation.

Online Course Completion – Front-End Developer Track

Finished multiple fundamental courses (HTML, CSS, JavaScript).

Self-Designed Learning Roadmap

Milestone-based plan to progress into React, Next.js, and UI/UX.

EDUCATION

B.Sc. Informatics Engineering

2024 – present

Coursework in front-end development, data structures, and project-based self-learning.

Relevant Coursework: Front-End Web Dev, Data Structures, Basic Algorithms

ADDITIONAL INFORMATION
